

October 17, 2011

Dear Business Owner,

We would like to invite you to sponsor and/or exhibit your goods and services at MAPS 25th Anniversary Conference and Celebration this December in Oakland. The enclosed brochure describes the ways your business can participate.

MAPS, The Multidisciplinary Association for Psychedelic Studies, is a non-profit research and educational organization that explores health and consciousness through innovative clinical studies and scientific analysis.

The 25th Anniversary Cartographie Psychedelica takes place December 8-12, 2011, at the Oakland Marriott City Center. It will feature lectures, workshops, a benefit auction, a tribute dinner for transpersonal pioneers Stanislav and Christina Grof, a late-night celebration, a brunch cruise on the San Francisco Bay, unique vendors, and cutting-edge visual and performance art.

MAPS April 2010 Conference "Psychedelic Science in the 21st Century" was a huge success with 1,200 participants and 25 vendors, who commented positively on the goodwill of the participants and the high interest and sales of products and services.

We are inviting thousands of MAPS supporters to gather this December in Oakland to celebrate past success, learn about the present, and help chart a course for the future of psychedelic medicine. MAPS offers a multitude of opportunities for getting your name, products and face in front of people who care about healing, personal growth, social change and the arts.

Business Partner Opportunities start at \$850 and include free conference passes as well as valuable exposure for your business. There are price points for every business! I would be happy to talk with you about personalizing your sponsorship so that you get exactly the level that fits your needs.

Thank you so much,

Stephen Witte
Business Partnership Associate
