

DEAR MAPS

Thank you...

I am a 17 year old high school student currently taking a psychology class and I

was assigned to do a research paper on

anything that had to do with psychology.

So I picked LSD studies with children. And

your site was the most helpful site I could

find on the internet! It was very informa-

tive and I would just like to say thank you

for having it. If I had the money I would

become a member because I think I would

like to become a psychologist in the field of

psychedelics. I have experienced LSD only

once and that was in a very small dose, 30

mcg, but it was enough for me to under-

stand the power this drug has and also

taught me to respect it. I go to your site bi-

weekly or monthly to see if any new studies

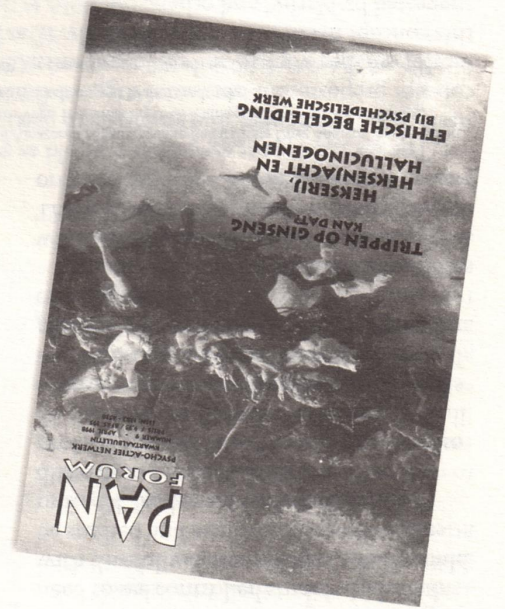

have been published. Once more I would

like to thank you for being on the internet

and being open to the public.

Thank you,

Glenn Henthorn

Dutch magazine about psychedelics folds

Unfortunately, the publisher of the Dutch bulletin on psychoactive substances, *PAN Forum*, has decided to stop publishing the bulletin. He felt that *PAN Forum* had not been able to get enough subscriptions and that continuing publication could no longer be financed.

PAN Forum was started in 1995 as a quarterly bulletin on the subject of psychedelic and hallucinogenic drugs. It attempted to publish a diverse range of views on the meaning of and developments in the various uses of psychedelics: psychotherapeutic, religious, subcultural, etc. In the eleven issues that were published between 1995 and 1998, original contributions by Dutch researchers alternated with translations from foreign sources, including the *MAPS Bulletin*. The editorial board of *PAN* consisted of

different generations of Dutch researchers of psychedelics. As editor, it is my conclusion that the kind of material that was published in *PAN* was too specialized and perhaps sometimes too academic for a Dutch language public. The *PAN* editorial board will, however, continue

some literary projects. A selection of the best articles from *PAN* will hopefully appear this year in an English edition with an American publisher. For the Dutch language readers, *PAN Forum* editors are now working on a

reader on the problems of the use of psychedelics in the context of modern western society, and the challenge of re-entry after psychedelic travel.

—Stephen Snelders

Luke Williams
Cheers,

All the info I gained from this Forum.

This is just a message to say thank you to everyone who provided me with advice and where to find references. I completed my dissertation "Human Psychedelic Research: A Historical and Sociological Analysis" yesterday, on the anniversary of Albert Hofmann's bike ride, and I couldn't have done it without
